SKILLS

JavaScript, React/Redux, Node.js, Express, Postgres, HTML, CSS, Git, RESTful API, Heroku, Illustrator

PROJECTS

Smood   React/Redux, Node.js, Postgres, CSS3
A progressive web app for tracking daily moods and activities. Provides visual representations of moods using Recharts.js, implements secure authentication using Bcrypt, and tracks state changes through multiple components using Redux. Minimalistic animations for an intuitive user experience.

Elevate   React, Node.js, Postgres, CSS3
A job application management platform featuring an SMS/email reminder system using Twilio and Nodemailer. Implements an incentivized and gamified reward system with custom-designed badges. Persists user across sessions using Passport.js. Manages file upload on cloud storage on AWS S3 buckets.

TrainMe   React, CSS3
A web application that connects individuals looking to start a new career with vocational resources offered in the New York City area. Interacts with NYC Open Data API to fetch course data. Winner of best user experience at C4Q Access Code's third annual Hackathon.

Madlify   React, CSS3
A Mad Libs inspired phrasal template word game that prompts users for a list of words to be substituted for blanks in a story. Interacts with a RESTful API to fetch stories.

EXPERIENCE

Coalition For Queens   Long Island City, New York
Full Stack Web Development Fellowship   Sept 2017 - June 2018
An intensive 10-month, Google-funded fellowship with a 9% acceptance rate. Gained hands on experience building full-stack and front-end web applications from a project-based curriculum designed by engineers at Vice, Facebook, Yahoo, Artsy and LinkedIn.

Choe & Oh, P.C.   New York, New York
Legal Assistant   Oct 2015 – Sept 2017
Prepared contracts, deeds, transfer tax forms, and closing statements. Performed daily duties such as balancing accounts, bill payments, maintaining office calendars, and restocking inventory.

EDUCATION

University at Albany   Albany, New York
English Literature | Art History   May 2014
